THE AMERICAN ACADEMY
OF HOSPITALITY SCIENCES

A world of Luxury Awaits You...

The American Academy of Hospitality Sciences is renowned worldwide for awarding excellence in the global travel and luxury service sector. Each year the academy bestows its coveted International Star Diamond Award exclusively on Five and Six Star quality hotels, spas, golf courses, restaurants, chefs, destinations, private clubs, high-end products, luxury travel, financial institutions, hoteliers, VIP figures and all affiliations exemplifying excellence in hospitality. This award is the most prestigious emblem of achievement, recognizing true quality in hospitality and in the luxury service industry. AAHS recipients are deemed to be of pinnacle quality and global recognition.

The academy was originally an international restaurant rating bureau in 1949, Chicago, Illinois. Forty years later, in 1989, Joseph Cinque relocated the organization's headquarters from Chicago to New York City, where it's currently based today. The name of the organization was changed and trademarked to The American Academy of Hospitality Sciences to highlight the true essence of luxury and success globally.

The International Board of Trustees is made up of respected leaders in the industry, and whom themselves are world travelers. Valuable sources from around the globe routinely submit nominations of Five and Six Star potential recipients for review. The Board then refines the selection to those who qualify for the ultimate recognition. Evaluations are based primarily on hospitality, gastronomy, attitude, quality, cleanliness and above all, service. The final selection of the Academy is based exclusively on the demonstration of commitment to excellence. This standard of dedication globally sets AAHS apart from all other award programs.

In addition to official award presentations the academy is also very proud to bring world-class chefs to the forefront of the culinary landscape by hosting various cooking events that unite together the many talents and flavors of the world's finest cuisine. Joined together with The American Academy's other recipients, this network represents the finest luxury goods and services the world has to offer. Showcasing renowned and Celebrity Chefs such as, Heinz Beck, Alain Ducasse, Pierre Gagnaire, Jean-Georges, Dieter Muller, Marc Haeberlin, Daniel Boulud, Guy Savoy, David Burke, Thomas Keller, Eric Ripert, Harald Wohlfahrt, Susur Lee, Massimo Bottura, Ernesto Iaccarino and other outstanding chefs.

Under Joseph Cinque's leadership the academy has evolved into an international powerhouse network with affiliates around the world. Today The American Academy of Hospitality Sciences is the only organization that awards excellence in the luxury travel and lifestyle service sector worldwide. Alongside Mr. Cinque is his protege Ms. Emma Cinque, his daughter, inspiration, and business partner. Emma Cinque, President of AAHS has a clear vision for hospitality and building connections with recipients worldwide. Ms. Cinque has the ability to inspire and motivate others, make decisive decisions, foster collaboration, demonstrate integrity, and effectively guiding the AAHS team towards achieving ambitious goals and overall success with unwavering optimism and business opportunities for growth. Emma Cinque has created a greater impact by introducing the technical digital aspects of the new modern world for navigating advanced technology. She brings forth the digital evolution of technology to include luxury to a digital necessity, knowing the importance of today's new generation.

As a team, The American Academy of Hospitality Sciences believes that unparalleled levels of services, amenities, and the overall experience for guests that go above and beyond the ordinary is the niche of The AAHS organization, establishing a clear definition of what constitutes luxury by enhancing life's experience. We invite you to experience Star Diamond quality first hand wherever your travels may take you.

A LETTER FROM PUBLIC SCHOOL 85

MAKING A DIFFERENCE:

SUPPORTING SCHOOLS & SHARING JOY THROUGH TOYS

THE NEW YORK CITY DEPARTMENT OF EDUCATION

Public School 85 Great Expectations

2400 Marion Avenue, Bronx, New York 10458 -Tel: (718) 584-5275 -Fax: (718)-584-7765

On behalf of Public School 85, The Great Expectations School, we would like to express our deepest gratitude to Emma and Joseph Cinque along with their organization The American Academy of Hospitality Sciences and their annual Toys for Tots program during the months of October through January.

Thank you for your years of continuous generosity providing thousands of TOYS to our students in need of some holiday cheer.

Your donation will be used to bring "hopes and dreams" to many underprivileged students in our community who especially need to be shown some kindness this time of year.

Once again, we would like to thank Emma, Joseph and The American Academy of Hospitality Sciences, for their kindness, generosity and support over the course of many years.

Sincerely,

A LETTER FROM LIFE AND FAITH SHARING ASSOCIATES (LEFSA)

SPREADING WARMTH & JOY:

SUPPORTING OUR COMMUNITY THROUGH COMPASSION & GIVING

Good morning, Joe.

I hope this letter finds you well. I just wanted to let you know that we appreciate the kindness and generosity you have shown us. Not just for what you have given us this year, but for your constant show of kindness generosity and love down through the years. Your contribution of toys, coats, etc. have brightened the lives of more people than you know.

It is because of people like you that make not only our jobs easier, but you also change the trajectory of the lives of others. Because of your contribution there's a child that may not have had a coat for this winter and now they can go to school warm. There's a family that may have had to explain to their children why Santa didn't come to their home, but because of you Christmas became a reality.

Thank you for being kindhearted and considerate of those who are less fortunate. You have shown yourself to be more than a donor, more than a contributor, you have shown yourself to be family.

On behalf of Life and Faith Sharing Associates (Lefsa) I would like to say, Thank you for your care and concern. You are truly a blessing.

Thank You
Carl Petrus

WHO IS BRANDON DAWSON?

“What you think is what you say, what you say is what you do, and what you do becomes your legacy.”

— Brandon Dawson

Brandon Dawson is a serial entrepreneur, business leader and scaling expert with years of experience in building, growing, and exiting businesses. Brandon and his wife Natalie attended the 10X Growth Conference in 2019 with 34,000 other people. After attending the event for three days, they made it their mission to meet Grant and Elena Cardone to share with them the opportunity to create a new business. This one meeting changed everything. Today, combining Dawson's IP with Grant Cardone's 10X mindset and his massive loyal community, they teamed up to co-found Cardone Ventures where Dawson serves as CEO and Managing Partner. Within the first 48 months, this new venture has gone from a pure bootstrapped startup with zero employees and zero revenue to over 250 employees and over \$300 million in revenue with \$100 million of EBITDA with no debt and no start up capital by the end of 2023.

Cardone Ventures' Team Mission is simple... Committed to clients achieving their personal, professional and financial growth goals of a true Success Story.

The 10X philosophy is more than just a mantra; it's a community. A community of achievers, thinkers, and doers who believe in multiplying their efforts, their successes, and their lives. 10X is about educating, building partnerships, collaboration, co-investing and collective wisdom of like minded people winning together within the 10X community. It all started with real estate and business mogul Grant Cardone, writing the 'The 10X Rule' and laying the foundation for a sales and marketing empire. This blueprint not only transformed his ventures, but also allowed him to invest profits toward real estate; ultimately creating a \$4 billion portfolio, backed by over 13,000 investors.

Changing the landscape of the real estate industry quickly attracted business scaling and growth experts, Brandon and Natalie Dawson. They joined forces with Grant and Elena, starting Cardone Ventures, a business consulting, investment and incubator firm revolutionizing the twelve trillion dollar SMB business marketplace. 10X isn't just a number; it's a mindset. It challenges you to magnify your aspirations, your wealth, your well-being, your impact, your life... and then 10X it again. We believe in dreaming big, and then dreaming even bigger.
